

# Connor Reeves, Earthbound

You took me higher than I've ever been  
Now that we're strangers, I've come down again  
Back to the real world, back to the real world  
Back to the ground  
Not high above it, without your loving  
Now I'm earthbound

Because your love it lifted me above it all  
Without it, it's leaving me so far to fall  
I hope you find what you're looking for  
I never thought there could be anymore

But if you really have to go  
You take the high, I'll take the low  
But when you leave me don't you know  
You leave me earthbound

You took me higher than I've ever been  
Now that we're strangers, I've come down again  
Back to the real world, back to the real world  
Back to the ground  
Not high above it, up where the love is  
Now I'm earthbound

Because we used to say that we were far away  
Because our love, it took us to another place  
And it's so hard for me to face

But if you really have to go  
You take the high, I'll take the low  
But when you leave me don't you know  
You leave me earthbound  
If you really have to go  
You take the high, I'll take the low  
But when you leave me don't you know  
You leave me earthbound
