

# Conor Maynard, Maybe I

When we're talking  
I get a feeling and I'm  
Thinking bout it  
Don't wanna tell you if I'm  
Being honest  
I don't know what I should do, no

Does it cross your mind  
Time to time  
If we crossed the line  
Would it feel right  
If we tried for the night  
Would you tell me the same  
If I say

Maybe I love you  
Know we both said no strings but maybe I want to  
Know we both said no labels what am I gon do  
What would you say if I said maybe I love you  
(I, I)  
Cause I think I do  
(I, I)  
Maybe I

We thought that we would stay the same  
Love can only bring us pain  
Now we out here switching lanes  
Both acting like we won't  
When we know  
That we don't  
Have control  
And I hope  
That we don't  
Let this go

Does it cross your mind  
Time to time  
If we crossed the line  
Would it feel right  
If we tried for the night  
Would you tell me the same  
If I say

Maybe I love you  
Know we both said no strings but maybe I want to  
Know we both said no labels what am I gon do  
(What am I gon do)  
What would you say if I said maybe I love you  
(I, I)  
Cause I think I do  
(I, I)  
Maybe I

Know we both said no strings but maybe I want to  
Know we both said no labels what am I gon do  
What would you say if I said maybe I love you  
(I, I)  
Cause I think I do  
(I, I)  
Maybe I
