

Considering Lily, Consequences

You can't do anything, anytime, anywhere
Without thinking about it
There's consequences, consequences

Choices are easily made
Sometimes hard to erase
That's the price we pay for living
Everything's dark when your eyes are closed
Left or right fork in the road
Play with a bomb and it's going to explode
Deeds are dominoes

Chorus:
You can't do anything, anytime, anywhere
Without thinking about it
There's consequences, there's no way around it
You can't do anything you want to anytime
Without thinking about it
There's consequences, there's no way around it

Decisions seem like a bore
But they're harder to ignore
Deciding what you're living for
Throttle the moment but the moment dies
Make your own truth but it's all a lie
Try to speed up and find that life
Will pass you by

Chorus

Up or down, fast or slow
All I know is that the
Boomerang will circle round
Back to the hand
Where it was thrown

Chorus
