

Couros, i don't feel the same

Held up by a heartache
Caught out by a change
I was headed in the wrong way
Back turned to the runway
Turn around
Turn around....

I don't feel the same....

Doubled down on a mistake
Feet stuck to the lane
I was staring at a blank space
Right time in the wrong place
Right time in the wrong place..

I don't feel the same..
I don't feel the same...

Took a lot but we got there
And now I don't feel the same
Now I'm here there's no going back
See I been through the looking glass,
And if I'd only known that all I had to do..
Was turn around...
Turn around...

I don't feel the same..
And I don't feel the same
