

Courtney Love, Clouds

Bad boy
Rows and flows of angel hair
And ice cream castles in the air
And feather canyons everywhere
I've looked at clouds that way
Moons and junes and ferris wheels
The dizzy dancing way you feel
When every fairy tale comes real i
Looked at clouds that way
But now they only block the sun
They rain and snow on everyone so
So many things I could have done
But clouds got in
Angel dust gets in your eyes and hair
Acid stars you're getting there
My body's a temple
I'll only give it to you
When you die
Looked at life that way
But now it's just another show

You leave 'em laughing when you go
Don't don't let them in
Don't don't them them know
Don't give yourself away
Yeah now my friends are acting strange
They shake their heads man
They say I've changed well
Well something's lost and rearranged
From living every every i've
I've looked at life from both sides now
From and still somehow
It's just illusions I recall
I really don't know
I really don't know
I really don't know
I really don't know
I really don't clouds at all
Why are we here
Terrified terrified
