

# Crosby & Nash, Cowboy Of Dreams

words and music by Graham Nash  
1975 Thin Ice Music (ASCAP)

Saw a sign on the highway  
I was driving along, way home  
On a hilltop is where I belong  
I took a look at the hole  
Where my head used to be  
And I'll sing you a song  
That descended on me

The way I live  
Determines the way  
My people survive  
Yes the way I live  
Determines the way  
My people survive

So I went to the country  
To look up a friend  
Cause I heard that the house  
And the barn had a blend  
I took a look at the hole  
Where the bird used to be  
And I'll sing him a song  
Because he sang one for me

The way I live  
Determines the way  
My people survive  
Yes the way I live  
Determines the way  
My people survive

And the names of the cowboys  
Will all blow away  
Like the dust off the desert  
On a hot windy day  
I've tried so hard to tell you  
In so many ways  
That I'm scared of the heartache and scenes  
With the cowboy of dreams
