## Crosby & Nash, Michael (Hedges Here)

written by Graham Nash

I saw you there like a fire in the sky then all I knew of you was gone except your music that I know will never die going on and on going on and on

in my life you were such a shining star burning bright for all to hear and in the distance is the sound of your guitar playing loud and clear playing loud and clear michael, flame on michael, bright eye michael, shine through michael, goodbye
