Crosby, Stills & Nash, Straight Line

Looking around it's plain to see
So many people trying to be
Just what they want and who's to say
They'll never get there someday

Walk in a straight line
Walking in a straight line
Hard times
Walking in a straight line

Always wanting to find your way
True to yourself you've got to stay
Trying so hard it's not easy I know
Never give up but if you have got to go

Walk in a straight line
Walking in a straight line
Hard times
Walking in a straight line

One day at a time is in your mind
You know that it can come true
So reach for your dreams and as crazy as it seems
Believing is all you can do oh, oh

Who's to say if I'm right or wrong
I know that I've just got to be strong
Maybe I'll never see that day
Still I'll fight for it anyway

Walk in a straight line
Walking in a straight line
Hard times
Walking in a straight line

Straight line
Walking in a straight line
Walking in a straight line (Hard times)
Walking in a straight line
Walking in a straight line
Walking in a straight line
