

Crystal Fighters, Boomin' In Your Jeep

we did it /4x

take your guard down
come into my card house
race the car down
all the way to San Jose with you babe
for you I throw my heart out
catching all your stardust
feel the fallout coming
but it's OK with you baby

cos we found something so it's drive it till we get to the center
to the deep
foot on the pedal
we don't sleep
feels like fireworks when you vibe with me all night to the music
to the beat
we turn it up
and we're booming in your booming in your jeep
we're booming in your booming in your jeep
we're booming in your booming in your jeep

all night to the sunrise
to the sunshine
we're booming in your booming in your jeep
all night to the sunrise
with the good times

we can blame us
balling like we're famous
wake the neighbors booming with you night and day
living loud always
and we don't need no labels
they cannot contain us
bass so contagious all
we gotta do is sway
take a hit and press play

feels like earthquake with those 808's all up in the emuic
to the beat
we turn it up
and we're booming in your booming in your jeep
we're booming in your booming in your jeep
we're booming in your booming in your jeep

all night to the sunrise
to the sunshine
we're booming in your booming in your jeep
all night to the sunrise
with the good times

jeep ready, bags stashing, subs burning, beat banging
jeep ready, black magic, subs burning, beat banging

bathed in starlight sipping on the moonshine
feels just so right rolling and we get no sleep with the bass so deep
