==Translation==

&lt;/lyrics&gt;

\* Why do I become so lonely?  
though I was always by your side  
But I can't be the girl you love  
I wanted you to look at me more

\*\* Why do I get so sad?  
I want you to hold me, but  
I won't be the girl you love anymore...  
I can't take the place of someone else

I realized it [looking at your] profile that you're dreaming of her  
Even now, you're chasing after those times

Do you love the girl so much that she's in ya heart?  
Baby, missin', wantin', wishin' for her probably  
After we kissed, the number of sighs  
Always hurt me, aches me, tells me  
that your heart isn't here with me, no, no

\* repeat

I believed that if time passed by, you'd forget her someday  
But you're here with your cold behavior unchanged, hey

If she's the girl U love so much that she's in ya heart  
Baby, missin', wantin', wishin' for her, that's why, hey  
I'm sensing even the goodbye, right now  
Gonna drop U, quit U, leave U alone, set U free

\*\* repeat

You're looking at only the past  
I won't tell you how much I care anymore  
Baby, will U ever know my true  
feelings? I'm lovin' U

But, time's tickin' right along for me  
We can't be together  
If it's love you feel for her,  
I have to go  
to a new place, hey
