

CURLY HEADS, Synthlove

Wait up 'till you find my tune
Hiding in the stories
Run now but remember this
Wherever you walk there're people against the love

And you fell why did you wait 'till the end
Outside the crooked well
And if the chance is bad
Still need to take it
And even if you're old and it is not the same
Outside the crooked well I need to take it

Believe it when I say it's done
Just trust me 'cause I'm so honest
I feel it in my every bone
Wherever you walk there're people against the world

And you said all of the things I learned
They'll never trust again
And even if it's bad
Still need to take it
And even if you're old and it is not the same
Climb out of crooked well we need to take it
