

Cute Is What We Aim For, Do What You Do

No one is telling me the speed I should be traveling
So watch me take the lead

There is an engine in my body
With every beat it lets me breathe
There is a machine within my body
If I can keep up with the machine that's in my body
I can do anything, be anything, see anything
I can feel the beat within my body
If I keep up with it could I catch myself?

Have you ever been fake for the sake of saving face?
You can work, you can play from the cradle to the grave
Doesn't matter what they say
Have you ever been fake for the sake of saving face?
You can move as you may from the cradle to the grave
Doesn't matter what they say

Quick, quick, quick
Come fix me up, I need to make my move
This damn machine doesn't work the way that it used to
But that's what I get for taking it for granted
I never even meant it, never even meant it
That's what I get for taking it for granted
I never even meant it, never even meant it
If I keep up with it can I catch myself?
