

# CYN, Believer

[Verse 1]

There must be something in the air that I'm not breathing  
I'm not receiving  
Something I must be unaware  
I got a feeling

[Pre-Chorus]

I am just a jaded girl  
I feel unlovable  
I need to blind my faith  
It's gonna take a lot to find my way to believe again

[Chorus]

So, put your hands on my body  
Like there's something you can show me  
Put your hands on my body  
Honey, I've got faith in nothing, oh  
But if you love me right  
Then baby, you just might make a believer out of me  
So, put your hands on my body  
Like there's something you can show me  
Put your hands on my body  
Honey, I've got faith in nothing, oh  
But if you love me right  
Then baby, you just might make a believer out of me

[Verse 2]

Secret codes written on the wall  
Can't understand it, can't comprehend it  
A touch that is invisible  
I got a feeling

[Pre-Chorus]

I am just a jaded girl  
I feel unlovable  
I need to blind my faith  
It's gonna take a lot to find my way to believe again

[Chorus]

So, put your hands on my body  
Like there's something you can show me  
Put your hands on my body  
Honey, I've got faith in nothing, oh  
But if you love me right  
Then baby, you just might make a believer out of me  
So, put your hands on my body  
Like there's something you can show me  
Put your hands on my body  
Honey, I've got faith in nothing, oh  
But if you love me right  
Then baby, you just might make a believer out of me

[Bridge]

Put your hands on my body  
Like there's something you can show me  
Put your hands on my body  
I've got faith in nothing, oh  
If you love me right  
Then baby, you just might make a believer out of me

[Chorus]

So, put your hands on my body  
Like there's something you can show me  
Put your hands on my body

Honey, I've got faith in nothing, oh  
But if you love me right  
Then baby, you just might make a believer out of me

[Outro]  
(Make a believer out of me)  
Make a believer out of me  
(Make a believer out of me)  
Believer out of me  
But if you love me right  
Then baby, you just might make a believer out of me
