

CYN, I'll Still Have Me

[Verse 1]

I broke my back 'cause
I thought you would too
I'd run in circles
I thought you would too

[Pre-Chorus 1]

Maybe in another life
Everything worked out alright
And things that made this harder passed us by
But there's no bad dream to wake up from
Know I got it bad when it's the morning
And you're all that's on my mind

[Chorus]

If I don't have you
At least I'll still have me
And if I don't have you
At least I'll still have me

[Verse 2]

I never thought twice
'Cause you were my number one
I put you first 'cause
You were my only thought

[Pre-Chorus 2]

No more riding on the train
No more smoking in the alley
Now my secrets only stay with me
Everybody knows I'm upset
They don't even have to ask it
They know I believed in us last week

[Chorus]

And if I don't have you
At least I'll still have me
And if I don't have you
At least I'll still have me

[Bridge]

There's no reason to speak badly
We just reached our end
I will see you in parts of me
In who I was back then

[Chorus]

If I don't have you
At least I'll still have me
And if I don't have you
At least I'll still have me, me, me
