Magnificent guns bust when 'Uzi Weighs a Ton'
And yo' Glock spits, consecutive rounds shot from clips
spells murder, sound synonymous to burner
Leave niggaz ass up, gaspin for air, front seats of truck
So who the fuck want me to press on they luck, bastard they son
When gats start to hum and whole crowds begin to run
Annihilation, destroyin all expectations
Have relatives embrace your Harlem hopital, we all patient
5 foot 6, concealed steel, pop more grip
With fixed sights that drifted to right, triggers light
So relinquish son, I'm to the finish, and you acknowledge
Couldn't pop a clutch or light a skyrocket, nigga stop it!
