

# Daft Punk, Infinity Repeating (2013 Demo, Feat. J

I was crossing the border to old friend coincidence  
I don't want any other, two old friend coincidences

Weekday, weekday, weekday  
I don't wanna play any other game  
On a simpler day

It's not right, it's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do

What he does, he does well  
He does well and he knows, he knows it  
Lay down, just lay down

I was crossing the border, we were waiting in line  
I don't want any other, two old friend coincidences  
Voice inside my head, it is sad, mine or yours?

Weekday, weekday, weekday  
I don't wanna say but he wants to know  
On a simpler day

It's not right, it's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do  
It's not true, it's not right  
It's not how we used to do
