Romanthony  
Coming straight for you One More Time  
Now listen

Ooh, I just saw you last night  
And we made good love  
Then came the morning light  
Still it's all I think of

Just one more time  
One more time, babe  
One more time  
One

You know I give my all to you  
I just can't help myself  
Now I'm gonna comfort you  
Until there's nothing left  
Just one more time

One more time, babe  
Let's make love  
Good love  
So good love

Just listen  
One more time  
we can celebrate And love so free

The music gots me feeling the need, babe  
One more time

We can celebrate and dance so free  
Love has got me feelin' the need  
The need, babe  
Need, babe

You wanna know if it's real  
The feeling that you feel  
You wanna know if it's finally doing it  
One more time, baby  
It's all, it's all good

Just one more  
One more time, baby  
Let's make that love

When you go to work I make it  
Hur ur urt

Before the machine take over and the system gets us in  
Just be a lover one more time  
Now and against  
Daft Punk  
Robotic, hypnotic, Romanthony  
Doing it one more time
