

Dalbello, Why Stand Alone

Who's riding that wave?
Who's been swept away?
You've been sailing solo
Dragging that undertow

I can see through
Your bravado
I can free you
From that ghost
I can see you
Right behind your shadow

CHORUS

Why Stand Alone?
Why Stand Alone?
I wanna take you home with me, so
Why Stand Alone?
It don't make you weak
To show me you need
I wanna take you home with me, so
Why Stand Alone?

Faded silhouette
Betrays your secret
You've been licking your wounds
You are not immune

I can see through
Your bravado
I can free you
From that ghost
I can see you
Right behind your shadow

CHORUS

Why stand alone?
Why stand alone?
I wanna take you home with me, so
Why Stand Alone?
It don't make you weak
To show me you need
I wanna take you home with me, so
Why Stand Alone?

BRIDGE

I can see that your eyes
Are sensitive to the light
Step away from the dark
You're not invisible - invisible

Sometimes we need
A little room to breath
Sometimes we need
A little gravity - gravity

CHORUS

Why Stand Alone?
Why Stand Alone?
I wanna take you home with me, so
Why Stand Alone?
It don't make you weak
To show me you need
I wanna take you home with me, so
Why Stand Alone?
