

# Dallas Crane, Out In Space

Well I don't need ya doin' in my head  
I got a one track brain out in space  
I said the word, just let me be  
I got a one track brain out in space

And I can't hear ya spinning that's and this  
Because I don't read minds, I don't read lips  
I said the word, just let me be  
I got a one track brain out in space

Well I don't need you doin' in my head  
And I don't need your nightmare in my bed  
I said the word just let me be  
I got a one track brain out in space
