## Dan Bern, Queen

Do you got to be a queen all your life Are you gonna take that crown off your head Are you ever gonna come to bed Do you got to be a queen all your life Do you plan on speaking in this year Are you gonna keep everything inside Are you gonna keep all your great thoughts to yourself Do you got to be a queen all your life Get off your throne I'm alone Get off your throne I'm walking and moaning I'm dying alone Do you got to be a queen all your life Do you got to cake on one more layer of make-up everyday Are you ever gonna tell me what you want me to do or say Do you gotta be a queen all your life
