Dan Reed Network, Save the World

I am you and you are me and we are all the same. So (tell me) why we play the silly games. there's the billion planets in the universe they say. there's got to be a better way than take. So, who's gonna light'em way. Who's gonna save the day. Who's gonna take a chance show the world another dance. Who's gonna be the one find a love for the lonely son. Who's gonna love us. (Who's gonna) save the world.
