

Dannii Minogue, Take Me Inside

In the dark there's a space that's calling me
There's a flame of light that's burning
And the sun never casts a shadow here
And the daylight doesn't matter

Take me inside
Take me inside

You're the journey that keeps taking me
And the parts of your heart discover
And the tide is rushing over me
Your taste is like a treasure

Take me inside
Take me inside
Take me inside
Take me inside

In the dark there's a space that's calling me
There's a flame of light that's burning
And the sun never casts a shadow here
And the daylight doesn't matter

Take me inside
(Take me inside)
Take me inside
(Take me inside)
Take me inside
