

# Dannii Minogue, The Gift Of Christmas

Here's the gift of Christmas, the world at it's best  
We mustn't forget why the gift of Christmas  
Can help remind us remember the rest

Who said that Christmas, yeah  
Was only for kids, yeah

We may think it isn't  
But we all know it is

Don't forget the sad ones  
The poor ones and the rest

Let's all come together  
And make this one the best

Here's the gift of Christmas, the world at it's best  
We mustn't forget why the gift of Christmas  
Can help remind us remember the rest

Don't forget the child  
When born was showered in gifts

How quickly we forget  
Just what Christmas is

The wise men and the shepherds  
They started up this thing

So long it's been tradition  
Make sure it doesn't end

Here's the gift of Christmas, the world at it's best  
We mustn't forget why the gift of Christmas  
Can help remind us remember the rest

Here's the gift of Christmas, the world at it's best  
We mustn't forget why the gift of Christmas  
Can help remind us remember the rest

Another child dies while Mama cries  
Wise are the eyes that realize like sunrise  
Keep growing and showing  
And while the tears, they keep flowing  
There never knowing where the other meal will come from  
So we jumped off the rack to give back with a track  
It's so easy to help, and help is the fact  
'Cause while the turkey you're carving could be a child starving  
We all need a lift and love is a free gift

Now at Christmas time everybody will sing  
Make all the children smile and grin  
Some of them small, some of them look thin  
All they need is a little loving  
So all of the people just keep moving  
Once a year you have to give something  
Christmas time and it just now begin  
Watch how the children start dancing

Here's the gift of Christmas, the world at it's best  
We mustn't forget why the gift of Christmas  
Can help remind us remember the rest

CHORUS TO FADE
