# Danny, Tokyo

Warm and cold
You grab me down, you lift me with your magic
New and old
I know your way but I don't understand it
Steel and stone
A thousand years of history and future
Gold and cone
A lazy beam's creating this illusion

I can leave any day But you're always gonna stay on my mind

## Tokyo

- You've got the rhythm in you High and low
- She's gonna do it to you

Tokyo

- You've got the rhythm in you High and low
- She's gonna do it to you

Sleepless nights My eyes are open but I must be dreaming You and I We play it cool but underneath we're steaming

You can run you can hide But this roller-coaster ride never stops

#### Tokyo

- You've got the rhythm in you High and low
- She's gonna do it to you

Tokyo

- You've got the rhythm in you High and low
- She's gonna do it to you She's gonna do it to you She's gonna do it to you...

### Ohh...

I can leave any day But you're always gonna stay on my mind And you can run you can hide But this roller-coaster ride never stops
