

# DARIA, Never Ending Story (feat.KUSH KUSH)

Tell me the secrets you hide  
Whatever keeps you awake in the night  
It's better losing yourself by my side  
Lie, lie lie lie  
Oh, why why why

You leave me alone now  
And I feel the storm is coming my way  
I gotta be strong now  
It's time to turn the burning plate

Just like a never ending story  
It's playing in my mind  
You told me you were sorry  
Yeah, once upon a time  
But I don't wanna worry  
So baby don't be sorry  
Let's just pretend  
This love will never end

Just like a never ending story  
It's playing in my mind  
You told me you were sorry  
Yeah, once upon a time  
But I don't want no worry  
So baby don't be sorry  
Let's just pretend  
This love will never end

Leaving my demons behind  
Together  
Turning the dark into light  
Forever  
Letting to stay up and fight  
Oh, why why why  
Don't lie, lie, lie

You leave me alone now  
And I feel the storm is coming my way  
I gotta be strong now  
It's time to turn the burning plate

Just like a never ending story  
It's playing in my mind  
You told me you were sorry  
Yeah, once upon a time  
But I don't want no worry  
So baby don't be sorry  
Let's just pretend  
This love will never end

Just like a never ending story  
It's playing in my mind  
You told me you were sorry  
Yeah, once upon a time  
But I don't want no worries  
So baby don't be sorry  
Let's just pretend  
This love will never end
