

Darius Rucker, Stargazing

Red wine, truck bed, and a blanket
Blue jeans, sun beams, faded
Summer nights, fireflies, staying
Right here with you
It's a hell of a view

Let's go

Stargazing
Got my heart racing
Under that moon
Looking at you
Between the stars in the sky and your eyes
I'm stargazing

Radio playing soft and steady
Take my hand, darling, if you're ready
We can dance all night in the headlight of the Chevy

Let's go

Stargazing
Got my heart racing
Under that moon
Looking at you
Between the stars in the sky and your eyes
I'm stargazing

The sun in your smile
The way you make me wanna stay here awhile
Just stargazing
Stargazing

Stargazing
Got my heart racing
Under that moon
Looking at you
Between the stars in the sky and your eyes
I'm stargazing

Ooh, stargazing
