Darius Rucker, Sure Would Have Loved Her

It felt like forever just like this to me Like the world was spinnin' for just her and me I don't know why she's gone but for all that it's worth Man, I sure woulda loved her

I sure woulda loved wakin' up to her smile And layin' down beside her for the rest of my life She stole my heart and turned into a ghost But that ain't the part that hurts me the most Man, I sure woulda loved her Damn, wish I coulda loved her

She woulda picked up the phone and she woulda known I was callin' to give her the world Now she's in the wind and I still feel the thunder Man, I sure woulda loved her

I sure woulda loved wakin' up to her smile And layin' down beside her for the rest of my life She stole my heart and turned into a ghost But that ain't the part that hurts me the most Man, I sure woulda loved her, oh Damn, wish I coulda loved her

I don't know why or if I even care When I close my eyes, she's still standin' there I'd still let her sweetheart darken my door Man, I sure woulda loved her Damn, wish I coulda loved her
