

# Dark new Day, Brother

Once upon a time I knew everything  
When I stop to think back on everything  
It all runs away like a memory [like a memory]  
Once there was a picture of a happy place

But I always keep thinking  
What a great place to leave

[Chorus]

I'd trade it all  
To have you all here with me

Father when you coming by?  
Mother leave the light on again.  
Sister with someone somewhere somewhere  
Brother Brother Brother

[Chorus]

Trailer park heaven was a dream to me  
Cause we had it figured out  
Simple and not jaded  
There was a promise of a brighter day  
But soon it would all fade out

[Chorus]

I'd trade it all  
To have you all here with me

Father when you coming by?  
Mother leave the light on again.  
Sister with someone somewhere somewhere  
Brother Brother Brother

When it's something we love that keeps us away,  
Well it costs even more and its so much to pay.

To have you all here with me

Father when you coming by?  
Mother leave the light on again.  
Sister with someone somewhere somewhere  
Brother Brother Brother  
Brother Brother Brother  
Brother Brother Brother
