## Dark new Day, Brother

Once upon a time I knew everything When I stop to think back on everything It all runs away like a memory [like a memory] Once there was a picture of a happy place

But I always keep thinking What a great place to leave

## [Chorus]

I'd trade it all To have you all here with me

Father when you coming by? Mother leave the light on again. Sister with someone somewhere somewhere Brother Brother

## [Chorus]

Trailer park heaven was a dream to me Cause we had it figured out Simple and not jaded There was a promise of a brighter day But soon it would all fade out

## [Chorus]

I'd trade it all To have you all here with me

Father when you coming by?
Mother leave the light on again.
Sister with someone somewhere somewhere
Brother Brother

When it's something we love that keeps us away, Well it costs even more and its so much to pay.

To have you all here with me

Father when you coming by?
Mother leave the light on again.
Sister with someone somewhere somewhere
Brother Brother Brother
Brother Brother
Brother Brother
