

Dark Sarah, All Ears!

The forces of the shadows
Call me to step inside.
Believer of the darkness, it's time!

Now, all ears!

Welcome! This asylum is for you
When you're feeling blue.
Welcome into this cult of dreams!

Now, all ears!

Call me a dreamer
These dreams will come true!
Just wait and see, and
The fortune falls to you!
One for the darkness, magic and monsters!
If they're real or not, we don't care,
Cause they just work!

Welcome! Join the coven.
It's time to step in line.
Show us all your powers inside!

Now, all ears!

Call me a dreamer
These dreams will come true!
Just wait and see, and
The fortune falls to you!
One for the darkness, magic and monsters!
If they're real or not, we don't care,
Cause they just work!

If there's a rage in you you don't know what to do with,
Just join the cult of dreams and wait and see,
You'll be released!
March, march, march, march, march!

There is no entry to Devil's Peak!
I am your nightmare, and you all shall scream!

One for the night, one for the light! Yeah!
One for the fight, for saving the might of mind!

You've come to this far in the story
So you must know
That life is so dull without stories that are told.
Now one for the darkness, magic and monsters!
If they're real or not, we don't care,
Cause they just work!
