

Daryl Hall & John Oates, What's Important To Me

Baby, now that I've known you for a long time
It's fine I told you something that's on my mind
Well, lately you never listen to a word I say
We're two different people, don't always see it the same way
Not always the same way, and baby ...

*chorus

What's important to me
Ain't nothing to you (Ain't nothing)
It ain't important to you
Ooh baby, what's important to me
Ain't nothing to you (Ain't nothing)
Ain't important to you

Remember when we could talk together with our eyes
You feel you have something girl, and then that feeling dies
I'm trying, but I can't think of anything to do
Don't bring it back, don't bring back the feeling
That I never knew you knew, we do ... baby ...

*chorus

The way I look for tommorow, you remind me of yesterday
What I have you can borrow, all I'm asking is return it
The same way you gave it, now baby ...

*chorus
