

# Dave O'Dowda, Smile (ft. Wood)

So many watches everyone and dries as skin right of your back  
and clean a line and future sixty watch why you look back  
Daisies watch a maintenance laugh or silver tries to win them back  
colors pass into the room, give the gold mighty wild  
Cause life loves beauty  
The stars still shine

Every time I look at you I smile

Cause I lost beauty  
Stars still shining  
Every time I look at you? I smile  
(I smile)  
(I smile)

So pick the scare and pick the fear  
While doors are locked and no ones here When fishing man was sitting and have a drink, come ba  
( )

Cause I lost beauty  
Stars still shining  
Every time I look at you? I smile  
(I smile)  
(I smile)
