

David Crowder Band, Rescue Is Coming

Theres a darkness in my skin
My covers wearing thin, I believe
Id love to start again, go back to innocent
And never leave

Dont give up now
A break in the clouds
We could be found
Theres nothing wrong with me
Its just that I believe things could get better
And theres nothing wrong with love
I think its just enough to believe

Rescue is coming
Rescue is coming
Rescue is coming
Rescue is coming

And theres nothing wrong with you
And nothing left to do
But believe something bigger
And theres nothing wrong with love
I know its just enough to believe

Dont give up now
A break in the clouds
We will be found
Rescue is coming now
