David Crowder Band, Rescue Is Coming

Theres a darkness in my skin My covers wearing thin, I believe Id love to start again, go back to innocent And never leave

Dont give up now
A break in the clouds
We could be found
Theres nothing wrong with me
Its just that I believe things could get better
And theres nothing wrong with love
I think its just enough to believe

Rescue is coming Rescue is coming Rescue is coming Rescue is coming

And theres nothing wrong with you And nothing left to do But believe something bigger And theres nothing wrong with love I know its just enough to believe

Dont give up now A break in the clouds We will be found Rescue is coming now
