

David Guetta, Distortion (Vocal Edit Remix)

Let me hear the beat
it just keeps going ha?
ohh it's fast
can u slow it down, a little bit?
I could use a little more rythm
knock a little louder sugar
yeah that's really bad
nothings change, nothings change, nothings change
but everything must change!
there we go...
now we're doin something

(2x)
a little distortion in my left ear
a little distortion, tell me can't you hear?

(2x)
it feels good to me, makes me feel alright
it feels good to me, makes my burdens light

(2x)
a little distortion in my left ear
a little distortion, tell me can't you hear?

(2x)
it feels good to me, makes me feel alright
it feels good to me, makes my burdens light

a little distortion

it feels good to me, makes me feel alright
it feels good to me, makes my burdens light
it feel goo-----d
it feels good to me, makes by burdens light

a little distortion in my left ear
a little distortion in me, cant you hear?
a little distortion...

what are you trying to do?
make me deaf or something?

a little distortion in my left ear
a little distortion, tell me can't you hear?

(2x)
it feels good to me, makes me feel alright
it feels good to me, makes my burdens light

a little distortion
a little distortion
a little distortion...

oh you can't've recorded that one
