

David Guetta, Get Together

There's only one thing you can't forget
You've got only one life
This is one night
And you'll never see her again

What time is it?
Do you know what time is it?
You ain't gotta be a scientist
For you to know that I'ma down with it

Stop willin'; hurry up
Cause I am firing
Don't you wanna be diving in?
You just gotta come round with it

It's 12:45
Got your body on my mind
And in 15 minutes you might be
The one for the night
But my number you can call
And the writing's on the wall
