David Guetta, Stay

Feeling in your kiss I can see you in the stars I don't believe in magic But I know just who you are I'm not gonna leave you Cause you've giving me a reason to stay, to stay, to stay...

Feeling in your kiss I can see you in the stars I don't believe in magic But I know just who you are I'm not gonna leave you Cause you're giving me a reason to stay, to stay...

Feeling in your kiss I can see you in the stars I don't believe in magic But I know just who you are I'm not gonna leave you Cause you're giving me a reason to stay, to stay, to stay...

In my mind We belong together In your eyes I believe in, I can see forever

Feeling in your kiss I can see you in the stars I don't believe in magic But I know just who you are I'm not gonna leave you Cause you're giving me a reason to stay, to stay...

Feeling in your kiss I can see you in the stars I don't believe in magic But I know just who you are I'm not gonna leave you Cause you're giving me a reason to stay, to stay, to stay...

I can feel it I can feel it I can feel it I can feel it... (stay)

I want you to stay {x17}

Feeling in your kiss I can see you in the stars I don't believe in magic But I know just who you are (I can feel it) I'm not gonna leave you Cause you're giving me a reason (I can feel it) to stay, To stay... (I can feel it)

Feeling in your kiss I can see you in the stars (I can feel it) I don't believe in magic But I know just who you are (I can feel it) I'm not gonna leave you Cause you're giving me a reason (I can feel it) to stay, To stay... (I can feel it) Feeling in your kiss I can see you in the stars
