David Guetta, Tomorrow Can Wait

Live life given now Tomorrow can wait Dance all through the night Sleeping all day Stuck inside a box You gotta get out! Stand up, get up Live your life now come on!

Stand up, get up! Come on, yeah yeah yeah! Come on, come on!

(Chorus)
Live life given now
Tomorrow can wait
Dance all through the night
Sleeping all day
Stuck inside a box
You gotta get out!
Stand up, get up
Live your life now come on!

Stand up, get up Let's go right now!

People linning through this life we lead Never knowing what we'll find out So we living, working, and waiting for the day There'll be something thats coming to take the pain away And we wait for nothing inside your ways You gotta let that fun girl through!

(Chorus)

Sometimes it feels How love indeed And when just floating Searching infinity (infinity x4)

Come on and dance here tonight Tomorrow can wait Dance all through the night Sleeping through day Stuck inside a box You gotta get out! Stand up, get up Live your life now come on!
