

Dawid Podsiadło, Son of Analog

I wonder where do we go
I wonder how do we know
I wonder if that's the world
We used to love from the start

I think you're not gonna love
The words I use in my songs
Sometimes I just get lost
You would not like me to talk

I think I'm falling apart
I think I'm gonna explode
I think I'm not letting go
What are we singing about
Why are we scared of the fight
It's no longer under control

The fire's burning the sheep
The fire's burning my heart
The people don't like the sheep
The people don't like my heart

I think I'm falling apart
I think I'm gonna explode
I think I'm not letting go
What are we singing about
Why are we scared of the fight
It's no longer under control
