Dawid Podsiadło, Son of Analog

I wonder where do we go I wonder how do we know I wonder if that's the world We used to love from the start

I think you're not gonna love The words I use in my songs Sometimes I just get lost You wold not like me to talk

I think I'm falling apart
I think I'm gonna explode
I think I'm not letting go
What are we singing about
Why are we scared of the fight
It's no longer under control

The fire's burning the sheep The fire's burning my heart The people don't like the sheep The people don't like my heart

I think I'm falling apart
I think I'm gonna explode
I think I'm not letting go
What are we singing about
Why are we scared of the fight
It's no longer under control
