

Dawid Podsiadło, Where did your love go?

I asked you to stop and go
I've burnt all my feeling so
So I can no longer see
The damage I've left in here

I'm asking again try
I've seen all the monsters die
No I'm sure that I am the one to change
So I still I still I still ask

Where did your love go?
Is it real? Is it here?
Where did your love go?
I know it must be near
Where did your love go?
Is it real? Is it here?

I'm begging the air to stop
I know you think I'm feeling fine
and you said the only world that I've seen
Is the world with my monsters living

Where did your love go?
Is it real? Is it here?
Where did your love go?
I know it must be near
Where did your love go?
Is it real? Is it here?
