Dawn Landes, Drive

You've had a hard time Livin' with a hard heart You hardly feel a thing

And you don't know where to start

It's all you want, all you want, and you run,

but it won't change a thing

So it won't be long, won't be long, won't be long, long

Before you can make it sing

It won't go away

It's comin' after you all day

You're surrounded

When you look at me that way

I don't ever think to say

But I just found it

Drive

C'mon, c'mon and drive

C'mon, c'mon and drive

Maybe it's bad luck

Leaving while I'm not for loan

When you leave everything

It's so hard to go home

It won't go away

It's comin' after you all day

You're surrounded

When you look at me that way

I don't ever think to say

But I just found it

I can't walk away

Drive

C'mon, c'mon and drive

C'mon, c'mon and drive

I can't walk away

I can't walk away

Drive

C'mon, c'mon and drive

C'mon, c'mon and drive

Just sail away, sail away, sail away, sail away

Sail away, sail away, sail away

Just sail away, sail away, sail away, sail away

Sail away, sail away, sail away
