De Heideroosjes, Inside My Head (You're All Dea

Sun is shining on my head, but it's a rainy day I'm just walking around and I got nothing to say I feel so weird but I'm not even drunk Everybody looks great, everybody but

[Chorus]

Nobody knows what's inside my head Inside my head, you're all dead! Nobody knows what's inside my head Inside my head, I wish you were dead!

All these kids act cool, they call me a nerd But it's my lucky day, today I can't get hurt They spit me in my face, yeah, the joke is on me Please, do it again, I don't mind because

[Chorus]

This naggin' it still continues, it just won't stop So I keep on smiling, until they drop My eyes wide open, head up in the air Everybody looks great, everybody but

[Chorus]

There will be a day, I'm sure that time will come No goddamn bully has the guts, to call me dumb All these kids will fear me, they'll act as I will Get them on their knees, this is my game
