Dean Martin, Hear My Heart (

Hear my heart hear the sound it makes of love The sound that whispers I love only you Every beat seems to tell me that we'll meet Yet I know you're meeting someone new

Ask you're heart if our love is really lost If it answers yes I'll know it then But if there's a chance then darling we'll have our romance Then darling we will be sweethearts again

Ask you're heart if our love is really lost If it answers yes I'll know it then But if there's a chance then darling we'll have our romance Then darling we will be sweethearts again
