

# Deep-Pression, Pain Is Everywhere...

pain...and pain  
is almost everywhere  
like black spiders  
behind wardrobe  
i think i could even drink it  
all at once  
like kind of cure...  
...step into suicide...

pain ... and pain...  
it's everywhere  
where i am  
like a black bird above  
who finds its prey  
...i think it could be me...  
when i'm sitting in my chair  
all alone... almost motionless...  
still...in pain...
