

# Deesha, Falling In Love

I see you lookin at me  
You look kinda shy  
Though your not usually  
my kind of guy  
I got this funny little  
feeling in side  
That your supposed to be  
the one in my life!!

And even though you never  
caught my eye  
there's somethin bout u  
i just, just cant describe  
somethin thats really got me completely hypnotized  
you've got me feeling kinda crazy  
so i know that I.....

(Chorus)  
Falling in love  
never gonna feel this way  
Falling in love  
never gonna be the same  
Falling in love  
never be alone again  
Falling in love  
its true, i'm falling in love  
I feel like  
falling in love...completely  
i must be fallling.....

It doesnt matter what i say  
or how hard I try  
there's somethin bout you that got me  
so i cant deny  
i'm feelin kinda hazy  
weak deep inside  
never imagined anything could feel this right  
And everytime i look in your eyes  
i get so helplessly lost  
feeling so high  
you got me thinkin bout forever and i  
so unbelievably  
beside myself i know that I.....

(Chorus)2x

Something so beautiful is happening  
I cant believe  
Its all so magical  
I can't imagine anything

(chorus)2x

I must be fallling.....in love  
.....in love  
.....in love
