

Deftones, Sinatra

I can't move her...
Obsessed with protection
This is a bad idea
She needs affection
What, me?!

Drive around town forced to talk
Pass that church again
Where's a parking spot?
It's Sinatra's world
She just lives here
I hate everything as much as
I hate me!

What's the best for me?! x4

She doesn't see me
And I don't care
Just move around some and
Fix your stare
I had more fun
Took half the time
Cost three bucks
Buy a magazine!

What's the best for me?! x4
