

# Del Reeves, Listen To My Song

Alright gang I've wrote this smash hit ha ha ha it's not so funny  
Let's all sing together it's got to be pretty let's go

Listen to my song well listen to my song  
(Tell me if you'd like it play I'll change it if it's wrong  
Listen to my music Goerge see if it's alright  
If it's not what you've had in mind I'll write you one tonight)

Well I wrote a little song a few moths ago  
My friends all said that thing oughta go  
So I packed my bags and I hit for Nashville town  
Well I wanted to get me a big star to do it  
So I made me a list with a few names through it  
And I started out to see if Eddy Arnold was in town  
Well I come in a home way back in the den  
I can tell he was glad when I walked in  
Cause he broken the singin' Make The World Go Away  
He finally listen the part of my song  
And then with a drawl of two two miles long  
He said see Ernest Tubb ha ha he lives just across the way

Listen to my song...

Well I'd see ol' Ern he was Walking The Floor  
Cause just as records were sellin' lower  
But he put me on a take and listened to every word  
He said I've been singin' since I was a kid  
And nothin' sounds like that song did  
Ah throw him out Billy Byrd  
Well I quit myself got back on my feet  
I saw Johnny Cash up in down the street  
And I asked him if he can use a hit or two  
He said I made mon on a Ring Of Fire  
Size Luther king playin' on his guitar  
So I don't care of the doo-di-dood-di  
I called Bill Anderson and he was at home  
But he said my Mama Sang A Song  
I'm sorry but I hope that you understand  
I saw Ralph Emery and I talked to him  
Along ol' Tex Ritter and WSM  
But they was too busy shakin' one another's hands  
Folly I decided that the only way  
A stranger in Nashville can make a little hay  
Is just to turn a record himself with that Nashville sound  
So I borrowed me some money and that's what I did  
Everybody tells me I've got a hit  
At least it's bubblin' under about one hundred ha ha  
And follows Alabama at the bus station

Listen to my song...
