

# Demi Lovato, CITY OF ANGELS

Been here for fifteen years  
I'm bored to tears  
There's nothing left to do  
This town is heaven sent  
But better when  
I'm face down under you

Before they go and write my eulogy  
Come make this place new to me by

Christening the city of angels  
Show it to me from every angle  
I wanna see Beverly on my knees  
I want you to make me scream at the Roxy  
Christening the city of angels  
City of angels  
The city of angels

Splash Mountain from your hands  
At Disneyland  
You know I skip the lines  
I'm going down on you  
At the Viper room  
At Saddle Ranch I'll ride

You call me they  
But I'm still daddy's girl  
Come make my day  
And rock my world by

Christening the city of angels  
Show it to me from every angle  
I wanna see Beverly on my knees  
I want you to make me scream at the Roxy  
Christening the city of angels  
City of angels  
The city of angels

Got me screaming ayo on Rodeo  
Got me screaming ayo on Rodeo

Christening the city of angels  
Show it to me from every angle  
I wanna see Beverly on my knees  
I want you to make me scream at the Roxy  
Christening the city of angels  
City of angels  
The city of angels  
City of angels
