

Demi Lovato, Commander In Chief

Were you ever taught when you were young
If you mess with ythings selfishly
They're bound to come undone?
I am not the only one
That's neem affected and resented every story you've spun

And i am a luckyone
Cause they are people worse off that have suffered enough
Haven't they suffered enough?
But you can't get enough of

Shitting down systems for personal gain
Fighting fires with liars and praying for rain
Do you get off on pain?
We're not pawns in your game

Commander in ched, honestly
If i do the things you do
I couldn't sleep, seriously
Do you even know the truth?

We're in a state of crisis
People are dying
While you line your pockets deep
Commander in Chief
How does it feel to still be able to breathe?
Able to breath

We were taugh whne we were young
If we fight for what's right
There won't be justie for just some
Weon't give up
Stnad our ground
We;ll be in the streets whie you're bunkering down
Loud and proud, best believe
We'll still take a knee whlie you're

Commander in ched, honestly
If i do the things you do
I couldn't sleep, seriously
Do you even know the truth?

We're in a state of crisis
People are dying
While you line your pockets deep
Commander in Chief
How does it feel to still be able to breathe?
Be Able to breath

Won't give up
Stand our ground
We'll be in the streets while you're bunkering down
Won't give up
Stand our ground
We'll be in the streets while

Commander in ched, honestly
If i do the things you do
I couldn't sleep, seriously
Do you even know the truth?

We're in a state of crisis
People are dying
While you line your pockets deep

Commander in Chief
How does it feel to still be able to breathe?
Able to breath
